I have been in a relationship with clay since I was a little girl making fun little sculptures from the natural clay found on the banks of Port Stanley. Climbing up high on the clay cliffs to hidden pools of soft warm clay was such an adventure! Part of the fun was getting covered in clay and slither down the bank without falling and jumping into the lake to get cleaned up.

In 1972 I attended Sheridan College in the Craft & Design Program with a major in Ceramics and participated in Craft Shows across Ontario from 1975 to 1995. During this period, I was the Craft Coordinator of Home County Folk Festival in London Ontario.

My commitment to the Arts eventually leads me to a wonderful opportunity at Hutton House in London Ontario as the Program Manager of the Pottery Studio & Leisure Programs from 1990 to 2016. Hutton House supports individuals with physical and developmental challenges and offers many creative opportunities. The Studio was a fun mix of professional artist, potters, volunteers, and individuals with challenges. We all strived together to build a strong wholesale and retail business across Canada by participating in the Toronto Giftware Show, and through the Hutton House Gift Shop.

Teaching has always been a passion of mine and I love to share my knowledge with students of all ages. I have taught pottery for Fanshawe College, and London Parks & Recreation.

So here I am now older and able to make vessels that speak to my soul. I like to make pieces that have a rhythm and motion influenced by nature. The direct contact with my hands on the clay evokes mindfulness and allows honesty with my feelings and sensitivity to my nurturing soul as a woman.

I hope you will enjoy my work!
